2 About us

nic – fascinating for generations

For over 30 years now we have been producing high-quality wooden toys. True right from the start to our philosophy of "something special" for children, sustainably developed and produced with care. Toys not just for one generation, but also for those that follow...

Now that sustainability and environmental responsibility is increasingly the focus of today's parents, we find our position strengthened yet again. We are always bringing our decades of experience to our new products and using these guiding pillars to direct our expertise.

Toys from our ranges impart values that are unique or rather in these days quite rare. In their early years, small children together with their parents discover impressive moments in stimulating the senses. Because children learn by playing.

The fact that play connects and possible restrictions on contact are more easily tolerated emphasises the playtime value of our products. In times such as during this pandemic, parents have been and are even closer to their children. Once again, our premium toys are fantastic and important companions in such strange times. Their feel and their timeless design continue to awaken curiosity in the young and in those who are older.

Imaginative options for play promote motor skills, a gift for combination and sensory development. They leave enough space for the child's own creativity and improve attention and concentration.

Let us walk down this path together to offer your customers fabulous sustainable toys that will move down the generations.

We hope you have a lot of fun and find inspiration while browsing through our wide and varied range.

Take a look!

Safety is our highest priority.

High-quality wooden toys have to put up with the way children treat them. This is often more than most toys can handle. However, we want you to go home with a flawless product. Therefore we apply the strictest requirements and guidelines to the nic wooden toys produced at our factory in southern **Germany**.

Our CE-compliant processes, as well as a number of other marks and seals of quality, give you the certainty of having chosen a valuable and outstanding toy.

The **CE** mark confirms that our products are in compliance with the European Standard for the safety of toys (EN 71). We use only selected wood, mainly beech and maple, from European forests certified for their sustainable forestry management standards. Further, our products are treated only with tested and certified varnishes and paints, primarily water-based. These are completely harmless to the environment and the health of children. Thus, these toys can be put into the mouths of even the smallest children, as even the dye released when in contact with saliva is completely harmless.

The aforementioned quality seals are not, however, a confirmation of the "indestructibility" of these toys. Our toys, as do most consumer items, react to a certain degree of wear and tear. Although our toys are compliant with all regulations applying to fall, tensile and impact tests, damage can occur through repeated exposure to impact and drops, as well as kicking.

Thus, we are not able to guarantee 100% indestructibility, as toys are often exposed to the incalculable mechanical stresses described above. Nonetheless, it is our aim to create toys for all age groups which will stimulate learning and development.

An important focus of education is to teach children about danger, how to behave when confronted with it and to protect them from it. Therefore, toys must regularly be inspected by caregivers and removed in time if damage has occurred.

Care and cleaning of these toys requires a moist cloth and avoidance of the use of chemical cleaning agents.

We give age recommendations for our toys. This is, of course, subject to the individual stage of development and the interests of each child. Additionally and if necessary, warnings are issued for certain toys, indicating possible dangers in the case of incorrect use. In this way, the legislator can contribute to preventing risks. Please heed such warnings precisely and keep them and the manufacturing certificate in a safe place.

A number of our products have also been acknowledged by the Working Committee "**spiel gut**" ("good play") for their play value. Recognition, for example from the Association for **Left-Handed Children**, or design prizes, also confirm the value of our work.

Nic wooden toys are valuable toys – for all the generations to come!!!

creamobil, a classic by nic.

Robust, durable, well thought out – unequalled in quality, functionality and play value!

hang up, put on, plug in...

All the items in the creamobil vehicle range can be combined with each other wonderfully.

Working parts – such as rotary knobs and steering handles – are designed to be used with the left or right hand.

Children learn purposefully to deal with technical details.

Continuous extension of the range promises fun for many years.

12 cubio from 1,5 years

Made in Germany 

cubio-plug-in building bricks

Even the youngest can already construct exciting buildings, towers and bridges by using the cubio plug-in building bricks. cubio captivates by an unique concept. The individual cubio building bricks are plugged into each other.

So, the buildings are not so endangered to cave in as with conventional building bricks. Elaborate buildings are thus created, and already small builders are glad about their success. This system can also be used for building ball tracks.

Enjoy the possibilities of playing

The nic CombiCar is available as a basic vehicle that can be combined with 3 different set-ups. The set-ups are very easily interchangeable with a flick of the wrist. The system is made for indoor and outdoor activities, but should be kept dry.

All CombiCar parts are made of high quality beech wood. Paints and varnishes are spittlefast and sweatfast and totally free from toxicants.

The product complies with the European safety regulations for toys (EN71) and our special nic requirements.

Craft and skill over 100 years of tradition: Walter toys, mainly manufactured in-house, are designed for a child's world of sensation, and are both challenging and stimulating to the imagination. They promote the child's mental and physical develop-

ment as well as his or her creativity. We place a special value on perfect fashioning and high-quality, non-toxic materials and varnishes. Toys for children to observe and understand the world around them...

The family of vehicles from Walter

– high quality, superbly fashioned and made of solid beechwood –
the new vehicle series from 1.5 years.

Touches of colour combined with racy details. Steel axles surrounded by dark wheel rims made of wood and rubber tyres. The surfaces are elaborately finished with water-based varnish. There's nothing you'd want to change, not even the price.

Small truck

25 x 12,5 x 17 cm

Easy to grasp steering on the driver's cab. Loading and unloading with no risk of pinching is possible even for small master builders, as the loading surfaces cannot be tipped. Figures cannot be swallowed.

Art. 66512

Dumper truck (with tipping function)

34,5 x 12,5 x 17 cm

Easy to grasp steering on the driver's cab. It's even possible to sit on the truck, which increases the play value even more.

(Little man can not be swallowed)

Art. 66511

Tractor

23,5 x 13 x 11,5 cm

With an ingenious trailer system; never lose a trailer again!

(Little man can not be swallowed)

Art. 66501

Single axle trailer

25 x 12,5 x 10 cm

Also compatible with the dumper truck.

Art. 66502

Fun hanging figures including wooden clip for attaching to playpens, baby carriers, pushchairs, etc.

Mausi
Art. 61114

Froggi
Art. 61111

Miezi
Art. 61115

Bell harmony
Hanging bell harmony with a pleasant sound for listening, gripping and observing.
Art. 61132

Baby learning toys

The hanging figures can be moved quickly and easily in and out of baby's reach. Thanks to the adjustable shaft, the figures can be pushed vertically and even horizontally towards the middle or sides, for example – a real rarity among baby learning toys. The detachable figures can even be used as grasping toys on the play rug.

Fun hanging figures including wooden clip for attaching to playpens, baby carriers, pushchairs, etc.

67 x 52 x 50 cm
Art. 61100

Sound pond

approx. 29 x 20 cm

This pond is really something. Clacking, crackling and croaking plus a jingling water lily are lying in wait for curious explorers.

Art. 61130

Game board

Colourful game ideas with fantastic colours and sounds. Provides play experience and impulses for infants age 3 months and up.

Can be attached to the playpen using the fastening straps; also ideal for the play rug.

20 x 17,5 x 7,5 cm
Art. 61120

Ferris wheel

The marvellous flywheel in rainbow colours with a little bell.
Art. 61245

Carousel

With quick movement, the balls move in circles, fascinating for a child's eyes.
Art. 61244

Little fruit tree

„Rattle me, shake me...“
Have fun shaking, listening and feeling.
Art. 61242

Rattling tree

For rattling and grasping. With flexible parts and polished maplewood.
Art. 61240

Rattling mushroom

Shaking the red "mushroom top" produces a very interesting and pleasant rattling sound.
Art. 61246

Willy

L 10cm
This cuddly centipede can be bent and squeezed. The little feet are perfect for infants to grip.
Art. 61248

Molly

L 13.5cm
Watch the cute and colourful articulated caterpillar crawl up and down the play rug. Those big eyes are irresistible!
Art. 61249

Rattling crocodile

Don't worry, the cute little crocodile will put up with being grabbed, cuddled and shaken.
Art. 61251

Snail

Slow is hardly the right word to describe this new toy, cute and mischievous would be much more appropriate. The yellow feelers just want to be grasped and shaken and the highlight is a little bell inside the "shell" that rings.
Art. 61352

Dolphin

Bright colours give this toy a really interesting and "funky" look. With a little ball for easy grasping and the ring to make a wooden rattling noise, you couldn't wish for anything more.
Art. 61353

Elephant

Not at all a white elephant! A design of new colours and shapes makes the elephant a friendly grasping toy for the play rug.
Art. 61350

Hedgehog

Simple and almost pacifying but not at all boring. Smooth curves combined with soft colour shades. Our hedgehog is just the thing for baby hands.
Art. 61351

Key chain

Colourful keys to touch and grasp. Even for older children a great toy.
Art. 61201

Go-Go

Flexible rattle with bell.
Art. 65107

Triangle

Light, flexible clutching toy for touching, gripping, moving, etc.
Art. 61260

Pyramid

Flexible clutching toy. The fun way to improve baby's grasp! With a variety of figures, colours, shapes and bells.
Art. 61270

Teething ring

For rattling and teething.
Art. 61208

Rattle-disk

To shake and to bite. Polished maplewood.
Art. 61247

Jingle Bell

Stained and polished maple wood. Stainless bell.
Art. 61316

Chiming roller

new

The hollow hemisphere in the interior makes a pleasant and peaceful chiming sound.
Art. 61305

Grip-n-Car

Minicar forming a baby rattle. Polished maplewood.
Art. 61322

First Car

For crawling babies. Beech- and maplewood.
Art. 61239

Grip-n-mouse

A clear shape and design. The little ears are made of felt, the whiskers and tail from high-quality string.
Art. 61324

Grip-n-duck

Rattle shaped as a little duck. Solid polished maplewood.
Art. 61325

Puppy-little dog

Wuff... Little dog to shake and to push.
Art. 61235

Driving on

Toot, toot, here comes the little red car with colourful balls on top to push along.
Art. 65112

Motor skills curve

In a classic design,
well established
and always
popular:

Rocking bee
The busy bee rocks back and forth -
guaranteed to bring forth a smile!
Art. 61551

Rocking mouse
The little blue mouse rocks back
and forth and claps its yellow paws.
Art. 61552

Bending clown
Pleased to meet you!
I'm the funny roly-poly toy
made of beech and maple wood.
Art. 61559

simple,
beautifully shaped,
just something different ...

Stand-up goblin
Thanks to a well-balanced weight ratio,
our little dwarf wobbles back and forth
with glee. And never stays down for long!
Diameter approx. 5 cm,
Height approx. 11 cm
Art. 61560

Stand-up beetle
The figure itself is slender, chivalrous and
somewhat outlandish. He has the same
wobble and rocking abilities as the dwarf.
He has no problem in righting himself
either. Diameter approx. 5 cm,
Height approx. 11 cm
Art. 61561

Tree frog
The gaudy green tree frog
accompanies the child with its
frindly goggle eyes.
It opens and closes its mouth
while being dragged behind.
Art. 63675

Doggy
Our little dog looks forward to going
for a walk. It waggles its head and
ears and waves its tail with joy.
Art. 63651

Trolly
Little caterpillar with a glamorous
play of colours when pulled.
Art. 63163

Push along dragon

Moves it's wings when pushed. Handpainted.
Art. 62314

Frog king

The king has a friendly, relaxed smile as he hops along on his felt legs through his push-along animal kingdom. Firmly grasping the golden crown in the form of a bell with a pleasant ring.
Art. 62313

Calypso

Flowers spin-around when pushed, with bells.
Art. 62310

Pushalong bumble bee

At last, a bumble bee, and such a lovable one too. With felt wings, a little bell and funny wagging movements, our bumble bee is definitely a lively influence in the pushalong animal range.
Art. 62317

Cow

Moo...
A friendly companion with cow bell and pink udder - she can even nod her head!
Art. 63737

Waggle-Duck

Duck gently moves its head and wings when pulled and quacks realistically.
Art. 63780

Dragon

A lovely animal from fantasyland moves its wings when pulled.
Art. 63902

Stacking beakers

Colourful wooden beakers in various sizes to stack or fit inside each other.
Size 21,6 x 21,6 x 8,5 cm
Art. 64550

Stack-n-cubes
Sorting and organizing after different sizes it's the first challenge for kids.
Art. 65067

Rolling Sorter

Colourful wooden building bricks in numerous colours and forms can be sorted into the sorting roller.
Art. 65061

Peg pony

Clear, colourful shapes will stimulate even the youngest to look closer at the little pony and pick it up. Then a challenge of fitting the right part into the right hole.
Art. 64591

Knocking game „Hau-Raus“

Who hammers best? Even the smallest can already train their craftsmanship by means of this knocking game.
Art. 64423

Lock-a-bloc

The fascinating lock-a-bloc holds many treasures. With attached key to unlock door. Good for hand-eye coordination.
Art. 64558

Shape-n-tree

Colourful wooden blocks are fastened to the tree by means of a cord and can be pushed through the shape-n-tree.
Art. 64590

Nuts and Bolts

Colourful screws and nuts – adapted for children's hands – can be screwed together in a variable way.
Art. 65081

Mix of screws

20 parts
Not only motor skills are trained here. The versatile mix of shapes can result in simple combinations or playfully crafted fantasy figures.
Art. 65079

Stew

16 parts (when completely dismantled)
Colourful cooking fun. And what's more, it's healthy, nourishing and completely safe. The knife is easy to hold and helps to develop fine motor skills. The vegetables and sausages are held together by Velcro fasteners.
Art. 65055

Vegetable cutting

Tomato, carrot and cucumber can now be cut several times. A safe cutting pleasure for stimulating the fine motor skills.
Art. 65053

Jumbo-Breakfast

Toast, vegetables or hamburger – preparing the children's breakfast is real fun now.
Art. 65050

Walter Import-Articles

These toys are perfectly crafted, and as manufacturers of high-quality toys in the Premium sector we are answerable for this quality. No toxic materials or varnishes are used, and child labour is not used.
All Walter Import articles have been tested and certified by an international, independent institute (Intertek). This means the articles correspond to the guidelines of the EN 71

Naturally coloured wooden toys

Sustainability is and has been our concern as high-quality manufacturers of wooden toys with our headquarters in Southern Germany, not just for the last few months but for over three decades.

We start with this aspect right from the beginning with acquiring the materials.

There is a major difference in the colouring in our organic range. We do not use water-based colours and varnishes, but rather oil-based plant pigments and natural colours.

Thus, the raw materials extracted from natural products, for example, pigments from plant colours, natural colours and natural oils, contribute to an environmentally friendly surface treatment.

Our range of bio-products is intended to give you an understanding of our philosophy "toys in harmony with nature", which is why we take special pleasure in offering them to you.

Glückskäfer®

Glückskäfer baby products stand for harmony and healthy development during the first few months of a baby's life. They encourage sensory development using natural materials, surfaces and colours.

Each Glückskäfer ambernecklace is delivered on a sales supporting cardboard display.

Amber necklace

are knotted after each bead. The clasp is made with special material to protect delicate skin from allergies. To avoid risk of injuries, the clasp is designed to break when being pulled or tugged strongly.

Our first realistic baby doll

Newborn babies from Glückskäfer – a sensation!!!!

We are pleased to introduce you to our special newborn babies in the world of dolls. Our newborn baby dolls are handmade, with a realistic weight and shape, of the highest quality and with empathetic features – more than just close to reality! The doll's 'skin' is even as soft as a newborn baby's skin.

Including detailed features such as fingers, toes, a navel and gender characteristics. The little head needs to be carefully held and supported.

Let yourself be enchanted, just by looking into their expressive eyes it is enough ...

"Dolls support children in their development and help them to understand who they are. Experiences are reflected, expressed in play and processed."

Professional text extract on the topic of dolls that arouse empathy

My first and only doll!
She still understands me!

The first realistic baby doll

- While playing children can learn how to handle a "real" newborn baby, by carefully holding the baby in their arms and supporting their little head.
- Important empathy skills can be acquired.
- The perfect opportunity to experience a little brother or sister-to-be.
- The gender characteristics help children to understand both themselves, others and the differences in children in a natural way.
- The pearls inside the baby dolls give them a life-like body language, with easy-movement and positioning.
- The baby dolls encourage fine motor skills, language development, imagination, empathy skills and are a friend for life.
- Exclusively and individually handmade by JOYK®, each doll with their own individual charm.
- From the age of 12 months plus. A child's first doll and cuddly toy.
- Easy care: Doll washable at 40°C / Clothes washable at 30°C.

Wicker bassinet incl. cloth and bedding
 (Can be used indoors and outdoors)
 approx. 45 x 30 x 62 cm (l x w x h),
 handle height approx. 55 - 56 cm
 Art. 521930

new

Now definitely a rarity in the world of wickerwork and doll's prams:

Carefully selected and sturdily finished basketwork, decorated with a pretty cloth canopy. The sturdy birch plywood panel links the wicker top with the substructure. The solidly finished beechwood undercarriage, as well as the high quality wooden wheels (PE surround), add even more value to this jewel of a pram. The canopy is easy to fold down by simply undoing the strings. Just the right place for our newborns to take an afternoon nap in the living room.

36 Colourful shapes from 1,5 years

Our coloured wooden Glücks-käfer-products are protected by well fixed water-based colours.

In contrast to lacquering, the grain of the wood shows through. The surface feels slightly rougher making the blocks less slippery - a plus for the child's tactile sense development.

What's more, these toys give free reign to your child's imagination. The different shapes allow unlimited creativity in all areas. A great way to spark a fascination with making "small" things "big".

44 **Branch wood** from 1 year

Develops the senses and an affinity with nature from an early age. We use finely polished hazelnut wood and basswood for our toys. They are allowed to dry completely naturally with no external influences, explaining their magnificent appearance. Our branch wood is in harmony with nature and the ideal way for children to develop their powers of sensory perception in contact with natural materials.

(without decoration)
Art. 528110

Shop and equipment from 3 years 55

Shop

limewood cpl. incl. blue cloth
(cash register and shop fittings not supplied)

Width 110 cm, depth 90 cm (2 possible settings),

Overall height 150 cm / Counter height 56 cm

Made from oiled limewood incl. high-quality drawers finger-jointed. (The blue cloth included.)

Art. 528300

Cash register

(incl. paper roll)

Made from high quality limewood. Highly functional, computer incl. beeping sound. By pressing the button you can open the cash register.

(Computer colour may vary!)

22.5 x 20 x 10 cm

Art. 528735

Shop

basswood without roof arch attachment and blue cloth.

Width 110 cm, depth 90 cm (2 possible settings)

Overall height 150 cm / Counter height 56 cm

Art. 528310

Balance

alder, 39 x 13 x 39 cm

with 5 brass weights

Art. 528730

56 Work bench from 4 years / Childrens electric stove from 5 years (under supervision)

Tool wall

(can be attached or used separately)

78 x 38 x 5 cm

The wall is made of oiled beech plywood. The strip at the bottom provides a proper finish, which will not allow any shavings to enter a possible joint.

This high-quality wall is ideally suited as an attachment for the work bench (Art. 528750) and can easily be retrofitted.

The fastening material is included in the scope of delivery.

Art. 528751

Work bench including 4 wood hooks

79 x 46 x 60 cm,

working height adjustable between

59–75 cm

A sturdy and decorative piece, not just for little would-be craft workers. Our work bench is made of solid, oiled plywood. The quality and handling are exactly the same as for a real craftsperson's work bench.

For instance, an industrial work bench collet made of metal is installed. This enables safe and convenient tightening of work pieces.

The height can also be adjusted – by approx. 16 cm!

Next to the lower shelf, a recess has been milled at the top of the work plate for holding the tools.

min. worktop height: 59 cm

max. worktop height: 75 cm

(measured from the floor to the top edge of the worktop)

Art. 528750

Delivery without tools!

Play kitchen from 3 years 57

A real rarity on the premium toy market: our brand new quality kitchen in finest beechwood. It comes with oiled surfaces and finger-jointed drawers surrounded by spacious upper cupboards and a Ceran cooktop panel, and fits directly against the wall to save space. This delightful play kitchen is guaranteed to wow not only mums but dads too, who will love the quality of the carpentry, especially as the kitchen is supplied fully assembled in 2 parts. But most of all it will please the budding young cooks and bakers who get to exercise their culinary talents through play.

Play kitchen with upper cupboard

Acting out occupations is even more fun if you have just the right outfit:

Doctor's outfit cotton
White coat with embroidered cap
2-part (cotton/washable)
PU 2 Art. 534106

The dressing-up set includes 3 blank name tags which can be individually labelled. You can then slide these into the transparent strips above the chest pocket.

Nurse
Nurse's apron
and hood
PU 2 Art. 534107

Doctor's case
Case dimensions
approx. 25 x 10 x 20 cm
Our doctor's case contains a stethoscope from medical specialist suppliers among other things, muted for children's ears just to be on the safe side. The muting can easily be removed by adults to allow the child to listen to the patient's real heartbeats. The accessories are generally very realistic and "genuine"-looking.
