

## nicBio – naturally and harmoniously in balance with nature

Sustainability is our connection and commitment. Not because it is an ever-growing trend. For over 12 years, we have been continuously developing our naturally stained wooden bio toys, specifically because sustainability is a fundamental part of our philosophy.

The natural surfaces are preserved by applying substances that include lemon peel oils, natural resins or plant dyes. In regard to selecting wood, we place particular emphasis on sustainable cultivation.

### Dummy chain, natural incl. clip fastener

The beads strung on the cotton cord are untreated and underscore the diversity in terms of natural shades of various types of beechwood. Length approx. 24 cm  
art.-no. 61140.1

### Threaded shapes

Shapes on the cord to thread through the cut-outs. It might look simple to eager tinkers, but it's a real motoric challenge. The 4 shapes are securely attached and thus will never get lost. Disc diameter approx. 10 cm  
art.-no. 64586.1

### Rolling rattle

Securely attached gaily coloured beads produce a nice rattling sound when the wheel is rolled. Due to the large diameter of the outer discs (7 cm each), the wheel rolls stably and also encourages observation skills.  
art.-no. 61310.1

Wooden toys that are not just perky, playful and colourful – this year, they're even heavenly! We use high-quality maple and beech woods in our Walter range in renowned nic quality, see for yourself:

Guardian angel, blue  
incl. wooden clip  
art.-no. 61113

The total length when not extended is approx. 33 – 34 cm. To hang, use the red elastic cord incl. wooden clip. The elastic cord is also on the hands and feet, which creates a great play effect when you pull them. The ring, made of fine maple wood, can be grasped and shaken. Naturally, the little flock of angels should not be without a little bell...

Devout and yet colourful + fun. Fitted with soft felt and the very best woods, our angels watch over and protect little adventurers in playpens, baby carriers and prams.

Guardian angel, light blue  
incl. wooden clip  
art.-no. 61116

### Swaying ladybug

The new ladybird is cuddly and lively as it wiggles back and forth. Not one for lying down, it usually prefers to stand up. It swings and dances merrily in children's rooms.  
approx. 9.5 cm long  
art.-no. 61554

CombiCar  
with steering wheel, horn + headlights,  
incl. trailer!!!

Wow

### CombiCar – vehicle (base + steering wheel essay)

The basic vehicle (undercarriage) has been known for decades as a high-quality ride-on vehicle with steel axles and wooden wheels incl. PE tyres that run almost silently. Now our robust beechwood CombiCar has taken a big step towards becoming a "car": with cleverly designed steering wheel, ideally suited for toddlers to grasp inside and out, a "beeping" horn and the strikingly designed headlights. It's sure to turn heads on the play street!  
The steering wheel attachment is securely fastened by means of the green CombiCar connecting pin.  
approx. 52 x 19 x 49.5 cm, seat height: approx. 27 cm  
art.-no. 2670

### CombiCar – trailer incl. trailing coupling

After a visual makeover, our trailer is back in the range and fits to all CombiCar sit-on vehicles. It's up to the driver whether to transport building blocks, dolls and cuddly animals or even "real" little passengers. It offers plenty of cargo space. Unloading is done through the rear flap without tilt function. The child-friendly flap slides up easily for unloading.  
The premium quality of the beechwood and steel axles is the same as that of the ride-on vehicles...  
approx. 49 x 25 x 31 cm  
art.-no. 2665

# New Products 2023

It's time to go on a creamobile holiday!

In tune with the current camping trend, we present our creative add-ons incl. nic figure and removable table. The solid beechwood enables optimal stability. The little holidaymakers can thus sit on it without any worries and combine it with the long basic model to race off on holiday on their own.

### Motorhome add-on

The separate figures cannot be swallowed and offer loads of fun in combination with the freely movable table. There is even a flap on the inside that can be opened for storage space. It's completely clever and well-designed.  
approx. 27 x 15 x 17.5 cm  
art.-no. 1854

With a flap that opens!

In combination with  
Basic model, long  
(art.-no. 1815)

In combination with Two-wheel tractor, long (art.-no. 1846) to make a motorhome

#### Fishing boat

from 3 years

The limewood barge sails through the waters and is on the lookout for "little fish". Sinking is impossible – the boat is robust and keeps smoothly afloat on the water.  
18 x 8.5 x 12 cm  
art.-no. 526420

#### Pirate ship

from 3 years

Aaaargh!!!! The sail is hoisted and the booty is snatched. The red/black stained limewood surfaces and the child-friendly printed sail make for piracy that is authentic but not scary. There's no chance of this boat sinking either!  
23 x 11.5 x 18.5 cm  
art.-no. 526418

#### Glitter treasure incl. treasure trove

from 3 years

The treasure is found... the 100 colourful acrylic stones, in both round and oval shapes, inspire all kinds of creativity. Embellish + decorate. Whether on building blocks, floors, play carpets, mum's windowsill and table or the children's birthday celebration table. There are so many possibilities!!! The imaginative designs not only captivate young creative minds, and the great treasure chest can provide inspiration for role-playing.  
Even older children enjoy creating unique sparkling patterns.  
11.5 x 10.5 x 3.5 cm  
art.-no. 525194

## A world of colourful shapes – natural and for the first time with wavy curves

Bright new designs with natural branch wood logs and colourful designs and shapes. With 4 high-quality boxes, colour-coordinated to the respective season, we present a new play option that is creativity plus. The new limewood playing blocks have rounded and especially curved shapes. They allow you to create landscapes and build magnificent and impressive structures. Use your fantasy to create lakes, mountains and cliffs, fields and meadows... All of them combined even produce the 4 elements... You'll be amazed:

#### Playing blocks spring

from 1,5 years

12 colourful limewood blocks  
In a wooden box:  
22.5 x 22.5 x 7.5 cm  
art.-no. 523400

art.-no. 530464

#### Snowman

Length 11.5 cm  
PU 5 pcs.  
art.-no. 530465

## Sensational – horse reins made of genuine, vegetable tanned leather!!!

from 3 years until at least 10 years

Made in Southern Germany

#### Horse reins made by premium leather

With real leather reins through the house, down the block, into the garden and everywhere else where "horses" are allowed. Our ingenious horse harness is not only renowned for its premium material, which is actually sourced in Southern Germany and undergoes an eco-friendly tanning process there. We also offer the unique experience that even 2 riders can steer and tame the wild horse. Releasing the 2 brass press studs on the bridle immediately gives you 2 reins to hold. One rider on the right, one on the left, and you're off. During the dressage break, the horse can even be easily tethered for a rest by closing the reins. If the horse gets caught in the bushes afterwards, the carrying strap can be opened completely at the left end by releasing the press stud. By using the second press stud, which is somewhat higher up, the rein can be made one size smaller. Of course, the big bell is a must! And they're off...  
art.-no. 536030

It can also be used as a lead!

from 3 years  
Spinning top diameter approx. 12 cm,  
material thickness approx. 1 cm  
incl. 18 sparkling acrylic jewels

Fantasy spinning top  
art.-no. 525050

Star spinning top
