## **WELCOME TO LUBULONA!**

Lubulona is all about providing kids with material with which they can create their own little worlds and tell their own stories.

Our little houses, vehicles, peg people, stacking trees and tunnel blocks can be used in many different ways and allow children to decide how to structure their play.

Our wooden toys are produced with a lot of love and care in the province of Barcelona, where our family business was born in 2017. Since the beginning of our journey Lubulona has continuously grown and each year new additions join the Lubulona universe.

New in 2022 are the tow trucks, the yellow bus, the ambulance and a hospital set. Let's start playing!

**Loads of love from  
Tina & Jordi**

## HOW WE PRODUCE

All our products are made out of responsibly sourced beech or maple wood (PEFC or FSC). We work with Europe-based production partners, who produce our wooden pieces. In our workshop in Barcelona, our wonderful team sand, colour and assemble the toys, before packing them and sending them off to clients around the globe.

UNIQUE & CREATIVE  
WOODEN TOYS

NATURAL,  
NON-TOXIC & ECO-FRIENDLY

DESIGNED & PRODUCED  
IN BARCELONA

## WHAT MATTERS TO US

**Minimalist Design:** We are great fans of minimalist designs. We love combining stained wood with natural wood. We don't like unnecessary features and want our toys to be warm, open, friendly and simple.

**Eco-friendly:** We work with certified wood and non-toxic, safe wood stains and glues. We try to be as environmentally friendly as possible and avoid the use of plastic wherever we can. From day one all our packaging has been plastic-free.

**Quality and safety:** Our toys all comply with the European safety standard EN71 as well as the US safety requirements ASTM F963 and CPSIA. They all go through a lengthy process of quality control to make sure they are safe for children and look the way they should: good.

## our products

## OUR PRODUCTS

## lubu town

Our first product was Lubu Town. A wooden city set that comes with wooden houses, roofs, ladders and cars with drivers.

Lubu Town allows kids to be architects and create their own buildings, plan towns and make it all come alive with the little Lubu peg people and their cars. Kids love the fact that every car comes with a driver that can be taken out. They love putting the Lubu people into the houses or using the houses as a garage for the cars. The little ladders can be turned into anything you want them to be: fences, ramps, walls etc.

## OUR PRODUCTS

## lubu vehicles

We have various types of little vehicles that are compatible with the Lubu Town world. There are our little cars that come with each Lubu Town pack, but are also available separately. Then there are our little buses which come with three peg people as passengers/drivers.

New in 2021 are our little trucks. The trucks come in six colour versions and all include one driver. The combination of vehicle with driver/passengers allows kids not only to play with vehicles, but also to add dramatic play, which gives them more options and promotes their creativity and imagination.

## OUR PRODUCTS

## supercars

Brand new in 2021: Lubulona Supercars!

Our supercars are little wooden racers, inspired by the beauty and power of nature! Each of the four race cars is based on one of these forces of nature: Fire and Water, Lightning and Thunder.

The supercars are available separately, as pairs or as a pack with all four vehicles. Creative, original and loads of fun to play with!

## OUR PRODUCTS

## prints on wood

Our prints on wood are beautiful illustrations printed on high-quality natural wood. The prints can either be hung on the wall or be placed on shelves or tables as they are thick enough not to fall over.

Available in nine different versions, these prints are perfect decorative elements for kids' rooms or any other space in a family home.
